**WINE WITCH**

Ta-daaaah!!! And here is the new super villain of the gang:  
The Wine Witch. Armed with powerful magical powers  
(including the power of seduction) and expert in the art of potions  
and cocktails, this evil witch has been especially designed to spice up  
aperitif time.

This new natural method cuvée is just like its muse:  
wild, invigorating, chilling, generous and superbly irresistible.  
Like Wanda Maximoff, who distorts reality at will to ensnare us in  
her web, our Wine Witch will transport you into a parallel universe.  
It will reveal itself in the glass with an explosion of aromas and  
flavours worthy of a journey through the multiverse. And for the  
adventurous, try it with a dash of lemon, ginger beer, mint  
and lots of ice cubes - or, for a more classic approach: a divine  
Marquissette.

We are dying for more super villains like this!
